

JAY MOORE

CREATIVE DIRECTOR | DESIGNER | ILLUSTRATOR

LET'S BUILD SOMETHING GREAT TOGETHER.

I am a seasoned & accomplished designer / illustrator / creative director with over a decade of design experience. Professionally, I've been around the block a few times in the design world - from some of the largest & best known media giants, to agencies, start ups & corporate environments, & all kinds of consulting projects in between. Projects range from apps, large media websites, promotional microsites, ux/ui, online campaigns, branding, prototyping, iconography, & illustrations.

I am a designer because I love a good story that connects people & I enjoy building things. I am a perpetual learner and enjoy new challenges. I love tackling problems from the ground up, & I excel at adapting to a variety of design styles. I want to work with the most talented (& kindest) people I can to create useful, innovative, & meaningful work together.

All the best!

INDUSTRY EXPERIENCE:

Advertising, Automotive, Banking, eCommerce. Dating, Editorial, Entertainment, Financial, Games, Healthcare, Insurance, Kids, Music, News, Real Estate, Shopping, Sports, Social Networking, Tech, Teens, Transportation, Travel, Weather

I've been able to work with some crazy talented people.
I have learned a lot & we've made some great things together.

What (some really nice) folks have said:

“ Jay is a savvy, skilled and collaborative digital professional that is an absolute delight to be around. His combination of creative talent, ux sensibility, and genuine passion about his work make him an ideal team member and someone I am always excited to work with. ”

- Courtney Dean, Information Architect, USA Today

“ Jay single-handedly dreamed up the entire design aesthetic for the latest redesign of Autoblog.com, a website that services over 6 million auto enthusiasts per month. I worked with Jay on this project, during which time I witnessed not only his exceptional design skills, but also his ability to manage how web design fits into a broader architecture of editorial, sales and SEO optimization. ”

-John Neff, Editor-In-Chief, Autoblog

“ Jay's design work is top notch and he's simply overflowing with talent. I had the pleasure of working with Jay on the full website redesign of the National Aquarium. Jay led the design effort for that project during which he successfully met tight deadlines, created stunning interactions, and collaborated with a diverse interdisciplinary team. ”

- Tom Wanat, Senior Consultant, Navigation Arts

“ Jay brings a level of creativity and enthusiasm to the workplace which is unmatched by others. His calm demeanor and eagerness to take on new projects has always made him enjoyable to work with. He is extremely passionate about his career and always assumes full accountability for the initiatives he is assigned to. Regardless of the amount of work on his plate Jay will go above and beyond to ensure deadlines are fully met without sacrificing quality. Most importantly, Jay is a team player and adds a tremendous amount of value to his team and organization. Outside of those important characteristics Jay's design work speaks for itself...simply amazing. ”

- Sean Lyons, Project Manager, Aol

“ Jay is one of the most talented designers I've had the pleasure of working with. His focus on user experience and the intricate details that create amazing and memorable designs, sets him apart from others. His passion brings new levels of innovation to each project. Jay's designs consistently maintain a strong balance between aesthetics and information. ”

- Mitch Hazam, Head of User Experience (UX) and Design, Navy Federal Credit Union

“ Jay is innovative, hardworking and personable. He constantly exceeds my expectations and is a pleasure to work with. He naturally thinks creatively and also truly cares about the work that he puts out and the audience that he's creating it for. He can execute exceptionally fast and is cool under pressure. I hope that I have an opportunity to work with him again in the future! ”

- Kate Condon, Creative Director, Aol
